

Aspen Power Catamarans

June 2010 Mid-Summer Newsletter

It's only been a few weeks since the last update, but wanted to share some info on the Gillette's boat we just finished. Some have wanted to see the generator installation, air conditioning, larger seat and aft shower. Below are these options.

New Options

Mase 2.7 KW Diesel Generator with double water lift muffler and extra soft mounts. It's very quiet and has NO vibration - nice to be around. Only needed for air conditioning.

Mase Generator Control Panel under AC/DC Panels

Second Mase Muffler for Quiet Operation

Cruise Air Exhaust Ducting Salon, Helm & Master Stateroom

Aft Shower w/Hot & Cold Water Controller & Spray Nozzle

Extra Wide Bentley Helm Seat

Desolation Sound Cruiser

We are set to leave Saturday morning, July 31, 2010, from Bellingham's guest moorage near Anthony's. Returning August 14, 2010 via Roche Harbor. Trip plan is as was published earlier. If you are thinking about this, please call or e-mail now as we need to reserve moorage at three of the stops.
