East Coast News

To Our Friends in Florida and on the East Coast:

Aspen Power Catamarans is pleased to introduce Gulf Shores Marina, LLC of Naples, Florida as our South East distributor and representative. Larry Graf, founder of Aspen, and Ken Main II, Member, Owner/General Manager of Gulf shores Marina, LLC have been friends and business partners over the past 14 years. As the Aspen product was under development, Ken was consistently in the loop with its progress and expressed interest in working with the new energy efficient line.

While maintaining a very tight factory direct to owner relationship for Aspen, the agreement with Gulf Shores gives Aspen a focus point and facility on the East Coast. Aspen buyers will be able to see and demonstrate the factory's boat stationed at gulf shores Marina. Ken's support and many years in selling and servicing catamarans will be invaluable in helping buyers sort through the many details of their Aspen purchase.

Gulf Shores Marina, LLC is a family owned business, started in 1989 with two large waterfront facilities. One is a sales office ship chandlery and dry stack storage. The second is a large service yard with a travel lift capable of lifting 60'ers. Ken's family and team of 19 can sell-service or repair nearly anything marine. They are certified in Yamaha, Mercury, Suzuki, Cummins, Yanmar and Volvo.

The Miami C90 show boat is currently on its' trailer at the facility in Naples, FL and available for viewing and with an appointment, demonstration rides.

Contact info:

Ken Main
Gulf Shores Marina
3470 Bayshore Drive
Naples, FL 34112
Bus: 239.774.0222

I hope you'll join me in welcoming Gulf Shores Marina to Our Team!!

All the best,
Larry Graf

C90 Cruiser

Dinette - Converts to 2nd Queen bed, loads of storage under.

Windshield System - The windshield system came together very nicely; exceptional visibility, plus a polished Stainless center bar for accent. Big hand rails on hard top and extra tall side rails for security on deck.

Dash - Electronics - C90 dash, electronics, glove box on right. AC and DC panels below for easy access and visibility. Both panels include Volt and Amp meters so you know what is happening. Solar Controller under glove box. We also added dimmers for the dash lights and a variable speed controller for the defroster.

Hanging Locker - Burmese teak hanging locker with seat/step/clothes hamper in King master. Shelf along hull side.

Teak Shelf - Headboard - Teak shelf -- headboard -- with reading lights. Bed lifts for storage under. Bed is made from 4" of premium mattress foam plus a 1" layer of space foam. Let's take a nap!

Classy Elegant Style

Large Cockpit - Large cockpit with overhang, oversized swim step with step through from cockpit.
